

**ENERGY RESEARCH PROGRAM****Research Planning Meeting: Understanding Population-Level Exposures Related to the Development of Oil and Natural Gas from Unconventional Resources****July 11-12****Workshop Charge Questions and Conceptual Model of Exposure**

The table of charge questions and the conceptual model of exposure to unconventional oil and gas-related sources were posted in the meeting space during the Workshop. Participants had the opportunity to add notes to both charts, assisting the HEI Energy Research Committee in determining research priorities and completing a conceptual exposure model.

***HEI welcomes additional responses to the charge questions and additions to the conceptual model until August 10, 2018.***

# Workshop Charge Questions

What does the literature tell us?	What does the literature not tell us?	What are your recommendations for criteria for prioritizing research?	What are your recommendations for population-level exposure research?	What are your recommendations for further literature review and data analysis before the September workshop to help in defining HEI research priorities?

# Conceptual Model of Exposure to Unconventional Oil and Gas Development
