
Welcome to the HEI Webinar series on air pollution and health in East Africa.

We will begin shortly.

For the full webinar program, please visit

<https://www.healtheffects.org/meeting/webinar-series-air-pollution-and-health-east-africa>

HEI is on Twitter (@HEIresearch & @HEISoGA)! Join us for news and updates from HEI.

About the Health Effects Institute

Independent Research Institute Providing Trusted Science

- Global expert network
- Rigorous science
- Does not take policy positions

Targeted Research and Reanalysis

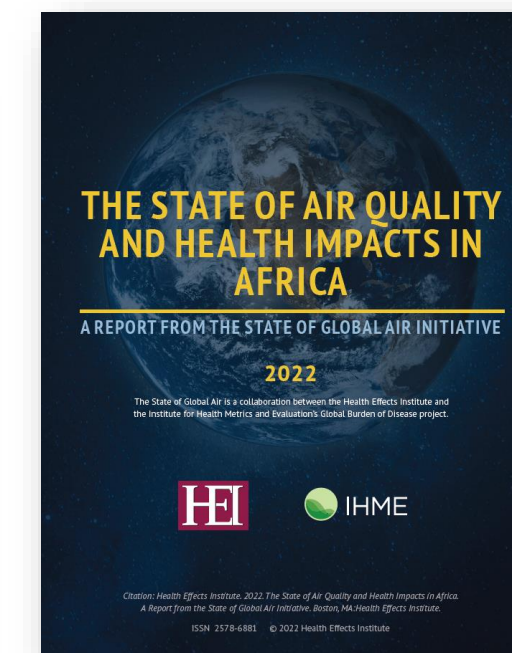

- Over 350 studies on a wide variety of air pollutants and sources: PM, ozone, air toxics; coal, diesel, natural gas, others

Scientific Review

- The Health Effects of Exposure to Traffic
- Health Effects of Air Pollution in Asia

Global Health

- The State of Global Air
- Targeted work in South Asia, East Africa, Southeast Europe

Before we begin

- If you experience any logistical difficulties, please contact us using the **Chat box**.
- You can turn on **closed captioning** for the event at the bottom of your screen to the *right* of the Q&A button.
- There will be a 3-minute Q&A period after each speaker, reserved for short technical questions. In-depth questions will be reserved for the 25-minute Open discussion period at the end of both sessions.
- Please **submit questions via the Q&A** function at any time during the webinar. You can also “upvote” questions in the Q&A.
- Webinar slides and recording will be available in the coming weeks.
- Registration information for upcoming webinars will also be available soon (<https://www.healtheffects.org/meeting/webinar-series-air-pollution-and-health-east-africa>).

Building Momentum for Health Studies Using Locally Available Air Quality and Health Data in East Africa

Webinar 1

September 19, 2023

Speakers

Dr. George Mwaniki
WRI Africa

Dr. Anderson Kehbila
SEI Africa

Dr. Kanyiva Muindi
African Population &
Health Research
Center

Ms. Priscilla Adong
AirQo – Makerere
University

Dr. Augustine Afullo
Eastern Africa GEO
Health Hub (Kenya)

Chairs

Dr. Godwin Opinde
Kenyatta University

Dr. Pallavi Pant
Health Effects Institute

Agenda

Opening Remarks: The role of data in air quality management	10 mins
Setting the context: Availability of local air quality and health data Leveraging shared knowledge on air quality monitoring data streams Demographic surveillance as a tool to promote urban health and socio-economic wellbeing	30 mins
Q&A	10 mins
Usability of available air quality and health data to build regional evidence base Quality assurance of air quality data, are available datasets homogenous? Showcase of ongoing or completed AQ and health research, opportunities & challenges	30 mins
Open Discussion	25 mins
Closing Remarks	

Question and Discussion

Please type in your questions via 'Q&A'

East Africa Webinar Series

September 19, 2023

Building momentum for health studies using locally available air quality and health data

October 25, 2023

Strengthening capacity to promote East Africa-led research programs on air quality and health

November 22, 2023

Expanding public engagement and communication on air pollution and health

January, 2024

Opportunities for promoting integrated action on air pollution, energy and climate in East Africa

HEI will make the webinars available on YouTube in the coming weeks. Check our website for details:

<https://www.healtheffects.org/meeting/webinar-series-air-pollution-and-health-east-africa>

The next webinar, **Strengthening capacity to promote East Africa-led research programs on air quality and health**, is scheduled for **October 25, 2023**. Please join us!

Thank you!
