

2023 HEI Annual Conference
Boston Renaissance Waterfront Hotel, Boston, MA
April 28- May 2, 2023

JANE WARREN AWARD VISUAL ABSTRACT INSTRUCTIONS

Submission Deadline: Friday, February 17, 2023

PLEASE NOTE: Because HEI Annual Conference attendees include policymakers and scientists from a variety of disciplines, **HEI requests that you create a visual abstract for a broad audience who** might not be familiar with your scientific discipline. To assist you, please review the resources below.

Abstracts should be submitted online ([access the form](#)) and related queries can be e-mailed to Ms. Ada Wright (awright@healtheffects.org) with subject line "HEI 2023 Jane Warren Trainee Conference Award".

- Your visual should be no more than one page including the title, authors names, and affiliations. It should contain (1) the study background and objectives, (2) a brief overview of the methods and approach, (3) a summary of the results obtained, and (4) a brief statement of interpretation and conclusions. Do not simply state "the results will be discussed."
- The use of abbreviations should be limited. The first time an abbreviation is used, it should be spelled out in full, followed by the abbreviation in parentheses.
- Please ensure that all formatting and special characters are clear in the submitted abstract.
- Please include relevant and clear visuals, including tables or figures.
- The abstract should "read" from top to bottom and left to right.

Resources

For examples and best practices explore the resources at Elsevier. Specifically, [this page](#) with great examples of what the HEI team is looking for. Please contact Ms. Ada Wright with further questions.
