

ADDITIONAL MATERIALS AVAILABLE ON THE HEI WEBSITE

Research Report 194

**A Dynamic Three-Dimensional Air Pollution Exposure
Model for Hong Kong**

Barratt et al.

**Additional Materials 1. Additional Information Regarding
the Sampling Sites, Measurements, and Modeling**

These Additional Materials were not formatted or edited by HEI. This document was part of the HEI Review Committee's review process.

Correspondence may be addressed to Dr. Benjamin Barratt, MRC-PHE Centre for Environment and Health & NIHR GSTFT/KCL Biomedical Research Centre, Analytical and Environmental Sciences Division, Faculty of Life Sciences & Medicine, King's College London, 150 Stamford Street, London, UK SE1 9NH; e-mail: *benjamin.barratt@kcl.ac.uk*.

Although this document was produced with partial funding by the United States Environmental Protection Agency under Assistance Award CR-83467701 to the Health Effects Institute, it has not been subjected to the Agency's peer and administrative review and therefore may not necessarily reflect the views of the Agency, and no official endorsement by it should be inferred. The contents of this document also have not been reviewed by private party institutions, including those that support the Health Effects Institute; therefore, it may not reflect the views or policies of these parties, and no endorsement by them should be inferred.

RESIDENTIAL AIR POLLUTION IN HONG KONG'S HIGH RISE BUILDINGS

WOULD YOU LIKE TO LEARN MORE ABOUT THE QUALITY OF THE AIR IN YOUR HOME?

WOULD YOU LIKE TO HELP US UNDERSTAND HOW HONG KONG'S AIR POLLUTION AFFECTS OUR HEALTH?

We are looking for volunteers to take part in a research project that aims to establish how much air pollution residents of Hong Kong are exposed to within their homes.

We are recruiting residents of this building on a number of floors, who would be willing to let us monitor pollution levels in their home for a week and answer a short anonymous questionnaire about cooking and ventilation. The only requirements are that no one in your household regularly smokes or burns incense and someone will regularly be at home either during the day or in the evening. Unfortunately, we cannot include households that include pregnant women, nursing mothers or young children.

We will not record any personal information and confidentiality will be maintained at all times. You will receive up to 500 HKD for taking part in the study to cover any inconvenience caused.

IF YOU ARE INTERESTED IN TAKING PART AND WOULD LIKE TO KNOW MORE, PLEASE CONTACT US USING THE DETAILS BELOW:

*****NAME OF RESEARCHER RECRUITED FOR STUDY*****

ON SHEET FOR PARTICIPANTS

REC Reference Number: BDM/13/14-35

YOU WILL BE GIVEN A COPY OF THIS INFORMATION SHEET (AVAILABLE IN CHINESE AND ENGLISH)

Residential air pollution in Hong Kong's high rise buildings

We would like to invite you to participate in this original research project. You should only participate if you want to; choosing not to take part will not disadvantage you in any way. Before you decide whether you want to take part, it is important for you to understand why the research is being done and what your participation will involve. Please take time to read the following information carefully and discuss it with others if you wish. Ask us if there is anything that is not clear or if you would like more information.

This research project aims to establish how much vehicle pollution residents of Hong Kong are exposed to within their homes. Of particular interest is the question of whether people who live on lower floors of buildings within street 'canyons' (roads with buildings on both sides and vehicles driving between) live with worse air quality than those on higher floors. In order to answer this question, we will be monitoring pollution concentrations within and outside of a number of high rise residential buildings across Hong Kong. We will be using the measurements to find ways of helping residents to improve the quality of air in their home, reducing the risk of harm from air pollution. The wider project results will establish stronger links between air pollution and health across Asia and identify who is most at risk and where.

The research project is being funded by the Health Effects Institute, a non-profit independent research organization who aim to provide high-quality, impartial, and relevant science on the health effects of air pollution. The project is entirely independent of the Hong Kong Government.

We are looking to recruit residents of this building on a number of floors, who would be willing to let us monitor pollution levels in their home for a week. The only requirements are that no one in your household regularly smokes or burns incense and someone will regularly be at home either during the day or in the evening. Unfortunately, we cannot include households that routinely include pregnant women, nursing mothers or young children. If you agree to take part we will give you a short questionnaire asking about your cooking habits and how often you open your windows or use your air conditioning (if you have any) during the week. We will not record your name, address or any personal details in this questionnaire.

We will arrange a date when a researcher can come to your home and install our monitoring equipment. This will be a box about the same size as a desktop computer with some tubes coming out of it. It is not noisy, but you can decide where we put it as long as it is close to a window that faces the street outside as some of the tubes will have to pass through the window. It is low power, runs on batteries, contains no chemicals and poses no risk to you. The researcher will arrange a time convenient to you to return every other day to change the

batteries. After a week, we will remove the equipment and collect the completed questionnaire. You will receive 250 HKD for taking part in the study to cover any inconvenience caused.

If you agree, we will return six months later to carry out the same measurements (you will receive another 250 HKD).

Should you choose to receive it, we will send you a summary of our research findings, including a brief assessment of pollution levels in your home, highlighting major outdoor and indoor sources and advice on how to reduce your exposure to air pollution.

We will not record any of your personal information other than contact details, which will be held on a secure computer at Hong Kong University and deleted upon completion of the monitoring. Only the researchers named below will have access to your contact details. Fully anonymised data may be shared with other researchers.

Once complete, study results will be published in academic papers. In addition, a non-technical summary will be provided to the Hong Kong Government and other interested parties. It is likely that the research will have some coverage in the media. It will not be possible to identify you as taking part in the study in any way.

It is up to you to decide whether to take part or not. If you decide to take part you are still free to withdraw from the study at any time and without giving a reason. If you do decide to take part you will be given this information sheet to keep and be asked to sign a consent form.

If you have any questions or require more information about this study, please contact the researcher using the following contact details: *****to be recruited*****

If this study has harmed you in any way, you can contact University of Hong Kong or King's College London using the details below for further advice and information:

CONSENT FORM FOR PARTICIPANTS IN RESEARCH STUDIES

Please complete this form after you have read the Information Sheet and listened to an explanation about the research. This form is available in Chinese and English.

Title of Study: *Residential air pollution exposure in Hong Kong's high rise buildings*

King's College Research Ethics Committee Ref: _____ BDM/13/14-35 _____

Thank you for considering taking part in this research. The person organising the research must explain the project to you before you agree to take part. If you have any questions arising from the Information Sheet or explanation already given to you, please ask the researcher before you decide whether to join in. You will be given a copy of this Consent Form to keep and refer to at any time.

I understand that if I decide at any time during the research that I no longer wish to participate in this project, I can notify the researchers involved and withdraw from it immediately without giving any reason. Furthermore, I understand that I will be able to withdraw my data up to the point of publication (January 2016).

I consent to the processing of my information for the purposes explained to me. I understand that such information will be handled in accordance with the terms of the UK Data Protection Act 1998.

I understand that confidentiality and anonymity will be maintained and it will not be possible to identify me in any publications

The information you have submitted will be published as a report; please indicate whether you would like to receive a copy.

Do you wish to receive an assessment of exposure to air pollution within your home at the end of the study?

I agree to be contacted in the future by University of Hong Kong researchers who would like to invite me to participate in follow up studies to this project, or in future studies of a similar nature.

I agree that the research team may use my data for future research and understand that any such use of identifiable data would be reviewed and approved by a research ethics committee. In such cases, as with this project, data would not be identifiable in any report.

RESIDENTIAL AIR POLLUTION IN HONG KONG'S HIGH RISE BUILDINGS

Please complete this questionnaire by ticking the relevant boxes and hand it to the researcher when you have finished. The researcher will be able to answer any questions you may have. The questionnaire is available in Chinese and English.

Thinking about the last seven days, while our monitoring equipment was running:

When did you cook a hot meal at home?

| | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday | Sunday |
|-----------|--------|---------|-----------|----------|--------|----------|--------|
| Morning | | | | | | | |
| Lunchtime | | | | | | | |
| Evening | | | | | | | |

What type of fuel does your cooker use?

| | |
|----------|--|
| Gas | |
| Electric | |
| Other | |

When did you have one or more windows open?

| | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday | Sunday |
|-----------|--------|---------|-----------|----------|--------|----------|--------|
| Morning | | | | | | | |
| Afternoon | | | | | | | |
| Evening | | | | | | | |

When did you use your air conditioning unit (if you have one)?

| | Monday | Tuesday | Wednesday | Thursday | Friday | Saturday | Sunday |
|-----------|--------|---------|-----------|----------|--------|----------|--------|
| Morning | | | | | | | |
| Afternoon | | | | | | | |
| Evening | | | | | | | |

Thank you very much for taking part in our research.

參加者記錄表

您可因應室外天氣情況（如大雨等惡劣天氣）自行決定是否需要關窗及收回監測儀器的氣體採樣管及/或供電線，收回後請您在下表記下收回的日期及時間。如遇上非常惡劣的天氣如颱風（三號或以上熱帶氣旋警告）或暴雨警告信號（紅色或黑色）等，我們的研究人員亦會通知您收回氣體採樣管及/或供電線。

天氣好轉後，如您認為適合開窗，請把氣體採取管及/或供電線放回窗外的原來位置，並在下表記下重新安裝的日期及時間。如您認為未能自行處理，請與我們的研究人員聯絡，我們或須上門處理。
